PROFESSIONAL EXPERIENCE

eBay PPC Specialist

M98M Global, Johar Town, Lahore | 15 April 2026 – Present

- Set up, structure, monitor, and optimize eBay PPC (Promoted Listings) campaigns to align advertising spend with product and account performance goals.
- Review campaign performance metrics, search-term reports, and conversion data to identify high-ROI keywords and reduce wasted ad spend.
- Assist with keyword and product targeting, budget allocation, bid adjustments, and weekly/monthly performance reporting for stakeholders.
- Collaborate with the account team to ensure advertising activity supports overall listing visibility and sales targets.

Amazon Private Label Specialist

Adventure Lab, DHA, Lahore | 3 April 2025 – 10 April 2026

- Conducted end-to-end product research and niche validation for Amazon Private Label opportunities using Helium 10, Jungle Scout, Keepa, and Seller AMP.
- Performed deep competitor analysis covering estimated monthly sales, pricing strategies, review velocity, listing quality scores, and FBA fee structures to identify profitable market gaps.
- Created and optimized high-converting Amazon listings including SEO-rich titles, benefit-driven bullet points, detailed product descriptions, backend search terms, and A+ Content modules.
- Applied Amazon A9/A10 ranking principles and marketplace SEO best practices to improve organic search visibility, click-through rates, and conversion performance.
- Supported full PPC campaign lifecycle: campaign structure (Auto, Manual, Exact, Phrase, Broad), match-type strategy, bidding logic, search-term harvesting, and negative keyword management.
- Maintained product data, inventory tracking sheets, performance dashboards, and day-to-day Seller Central tasks using Excel and Google Sheets.
- Assisted with product launch preparation including keyword prioritization, listing readiness checks, and initial advertising setup for new Private Label ASINs.

Amazon Private Label Intern

UET, Lahore | 5 January 2025 – 31 March 2025

- Supported product, market, and competitor research to evaluate profitable Amazon Private Label opportunities and shortlist viable niches.
- Performed keyword research and assisted in optimizing listing content (titles, bullet points, backend keywords) to improve relevance and search ranking potential.
- Organized and analyzed product data in Excel and Google Sheets while applying core Amazon FBA, listing SEO, and PPC fundamentals learned during the internship.
- Gained practical exposure to Seller Central navigation, product research workflows, and basic campaign performance interpretation.

PRACTICAL AMAZON PRIVATE LABEL PROJECT EXPERIENCE

- Completed full product hunting cycles: demand validation, competition scoring, estimated profit margin calculation, break-even analysis, and seasonality checks using Keepa price and sales rank graphs.
- Performed advanced keyword research with Helium 10 Magnet and Cerebro to extract high-relevance, high-volume, and long-tail search terms for sample product listings.

- Designed complete SEO-optimized Amazon listings (titles, bullets, backend keywords) and structured A+ Content / EBC layouts focused on brand storytelling and conversion.
- Analyzed competitor listings, historical pricing, BSR trends, and review patterns to determine market positioning, differentiation angles, and pricing strategy recommendations.
- Built and evaluated PPC campaign frameworks including Auto campaigns, Manual campaigns, Exact/Phrase/Broad match types, bidding strategies, and search-term optimization logic through practical case studies.
- Researched and shortlisted Alibaba suppliers by comparing MOQ, unit pricing, sample quality, lead times, shipping options, and communication responsiveness for Private Label products.
- Applied Amazon ranking algorithm insights (A9/A10) to listing structure and keyword placement decisions aimed at improving organic relevance, conversion rate, and long-term search ranking.
- Created organized product research trackers and keyword lists in Google Sheets / Excel to support systematic evaluation and prioritization of product opportunities.
